

# Chouki Amira

## FULL-STACK WEB DEVELOPER

### About me

I recently graduated in full-stack JavaScript development, with a clear passion for the web. My academic background and commitment have equipped me to succeed in this field.

I aspire to apply my skills and knowledge to enriching projects.

### Experiences and Projects

**GoMyCode**, Tunis avril 2024

#### Secondhand Clothing E-Commerce Website "Fripy"

- Development of an e-commerce website for users to buy and sell secondhand clothing. The site provides a user-friendly platform for browsing, purchasing, and secure online payment. It includes features such as easy article search, filtering, and viewing. Implemented a secure authentication system with login, registration, and profile management functionalities. Created a dynamic shopping cart for users to add, modify, and remove items, and securely place orders. Integrated a secure online payment system with multiple options such as credit cards, PayPal, etc. Developed an admin dashboard for efficient management of products, orders, users, and inventory.

**Mongi Ben Hamida National Institute of Neurology**

Tunis June 2023- Mars 2024
